Submission:

MT06, use of disused rail line from Ckaremirris to Collooney

Consultation:

Material Amendments to Draft Mayo County Development Plan
2021-2027

Greenway now with Railway and Greenway later

Chapter: Volume 2: Development Management
Standards

The old rail line north of Claremorris is a valuable resource for local communities and the tourism economy. The best use of this resource is to develop it as a Greenway in the short term and when the rail line is being upgraded to build a Greenway alongside the new railway

Main opinion:

Greenway

Main reasons:

If MCC only has the objective of using this rail line for a railway it is likely that this resource will remain unused for many years. It is possible to achieve both a Greenway and a Railway but the sequence should be Greenway now with both the Railway and Greenway later
